Brief Summary and Statement of Need:
This project will repair two embankment failures and replace the pavements on the Glenn Highway at MP 58 and at MP 97. The failure at MP 58 is about 1,300 feet, and the other failure extends about 350 feet. Project will include additional geotechnical investigations to include drilling, sampling and soils testing to determine the cause of the failure and develop slide stabilization alternatives. Both repairs will stabilize the embankment failures and eliminate the need for long term maintenance.
