Brief Summary and Statement of Need:
This requests the authority to receive additional federal funding available for the Lake Hood Seaplane Base. The current authorization to receive federal funds does not cover all allowable federal entitlement funding for the remaining years, nor does it allow the airport to accept additional federal discretionary funding for safety projects, such as the runway safety area upgrade. General aviation projects could include new aircraft aprons, runways, taxiways, roadways, drainage systems, electrical systems, signage, and other needs as identified.
