Platinum K-12 School Prime Power Generators **FY2010 Request: $181,678**
Reference No: 47862

AP/AL: Allocation
Project Type: Renewal and Replacement
Category: Education
Location: Platinum
Contact: Eddy Jeans
House District: Bethel (HD 38)
Contact Phone: (907)465-8679
Estimated Project Dates: 07/01/2009 - 06/30/2014
Appropriation: School District Major Maintenance Grants

Brief Summary and Statement of Need:
Major Maintenance Grant Fund - Project #12: Platinum K-12 School Prime Power Generators. This project will convert the school facility from community power to prime power. The current Voc Ed Shop will be converted to house the new school power plant; shop equipment will be relocated, and minor structural upgrades will be made to the floor system in the building prior to installing the new generators. A 4,000 gallon double wall fuel tank will be installed in addition to two new utility poles.

Funding:	FY2010	FY2011	FY2012	FY2013	FY2014	FY2015	Total
MaintGrant	$181,678						$181,678

Additional Information / Prior Funding History:
Currently, electrical power for Platinum School is supplied by the old Platinum Mine generator. This generator has become extremely unreliable and the school district is worried that it will fail and they will be left without power and forced to close the school. This project will enable the school district to self-generate their primary power supply.
