Brief Summary and Statement of Need:
Department of Corrections (DOC) originally requested and received an initial $1.5 million for a produce plant at the Point McKenzie Correctional Farm (PMCF). DOC solicited and negotiated a contract to complete a bid ready design for the construction of the produce plant. Due to increased construction and equipment costs, the overall amount needed to complete this project has increased requiring additional funding before the project can proceed.

Sec8 Ch1 SLA2021 P71 L15 HB69 $1,500,000

DOC received supplemental funding ($1.5 million) in FY2022 for the implementation of the Prison Industry (PI) Produce Processing Plant. Additional funds are needed to meet the full scope of the project.

Project Description/Justification:
This project will meet the construction, renovation, electrical and equipment needs to construct a fully functional produce processing plant with large distribution ability. Once completed, PMCF will be able to process the produce currently harvested and provide long-term freezer storage for year-round distribution.
