Independent Living Council and other special needs advocacy groups have identified supportive housing as a top priority in their statewide planning efforts. The target populations consist of mental health beneficiaries and other special needs groups like severely emotionally disturbed children.

To optimize leveraging of these funds with other Federal grant and tax credit programs and to expedite the release of funding to non-profit housing developers, AHFC will administer these housing development funds. This will also administratively streamline housing development projects, which also intend to borrow money from AHFC. Typically, most special needs housing in Alaska is financed by AHFC.

Examples of special needs housing includes, but are not limited to:

- ? Congregate housing for people with mental illness or developmental disabilities;
- ? Supportive housing, including assisted living for people with mental illness, developmental disabilities, or multiple disorders;
- ? Transitional housing with support services for newly recovering alcoholics and addicts.
