Project Description/Justification:

The Scenic Byways program allows communities to promote tourism and economic development by obtaining official state and/or national recognition for roads that possess outstanding scenic, recreational, historic, cultural, natural, and/or archaeological qualities. Projects are then developed to enhance, interpret, and promote these qualities.

The grant program provides resources for byway communities to create a unique travel experience and enhance local quality of life through efforts to protect, interpret, and promote the intrinsic qualities of designated byways. Projects funded through this program reflect the decisions and priorities of local byway communities and organizations.
