**Additional Information / Prior Funding History:**

FY2006 - \$6,800,000; FY2005 - \$5,111,000.

**Project Description/Justification:**

The existing Takotna airport has one gravel runway, which is shorter than standards recommend, lacks lighting, and has an obstructed approach surface. The runway safety area does not conform to standards for length, width, and grading. The aircraft parking apron is a widened portion of the runway; aircraft commonly park inside the object free area and the airport lacks maintenance facilities.

Operating and maintenance costs will be approximately \$47,000 per year beginning in 2011.
