Project Development:	0	0
Ongoing Operating:	4,700	0
One-Time Startup:	0	
Totals:	4,700	0

Additional Information / Prior Funding History:

None.

Project Description/Justification:

The existing SREB is 18 years old and is in a deteriorated condition, has a dirt floor, and is not heated. A recent structural study showed damage to the siding and both doors. Togiak is located on the coast subject to salt spray and the metal components are showing evidence of deterioration from oxidation. The electrical system does not meet current standards and requires upgrading to address deficient conditions.

Operating and Maintenance costs are estimated to be \$4,700 per year starting in FY2011.
