

Statewide: Enhanced Pavement Markings**FY2009 Request: \$2,000,000****Reference No: AMD 45679****AP/AL:** Allocation**Project Type:** Construction**Category:** Transportation**Location:** Statewide**Contact:** Frank Richards**House District:** Statewide (HD 1-40)**Contact Phone:** (907)465-3900**Estimated Project Dates:** 07/01/2008 - 06/30/2013**Appropriation:** Surface Transportation Program**Brief Summary and Statement of Need:**

This is a new FY2009 Capital Budget Request. This project will improve the markings and striping along the Glenn and Parks Highways from Anchorage to the Mat-Su Valley. These multi-lane highways carry the highest traffic volumes in the state. Our current technique of re-painting the markings does not hold up to the traffic loads and the lines do not last a full winter season. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.

Funding:	FY2009	FY2010	FY2011	FY2012	FY2013	FY2014	Total
Fed Rcpts	\$2,000,000						\$2,000,000

Additional Information / Prior Funding History:

FY09 budget request includes \$1.0M GF.

Project Description/Justification:

The absence of marking is our number one user complaint. Adequate lane marking is an important element that contributes to highway safety. This project will install recessed (grooved-in) traffic markings that have higher retroreflectivity and much longer service life. We anticipate bidding out a performance contract that will require the contractor to meet a minimum retroreflectivity standard year round. The higher retroreflectivity will mean the marking and lines will be visible to the drivers year-round, providing a safer driving environment. This technique and contracting method is being used by Minnesota, Utah and Idaho with very good results.
