No money appropriated in this appropriation may be expended for an abortion that is not a mandatory service required under AS 47.07.030(a). The money appropriated for Health and Social Services may be expended only for mandatory services required under Title XIX of the Social Security Act and for optional services offered by the state under the state plan for medical assistance that has been approved by the United States Department of Health and Human Services. This statement is a statement of the purpose of the appropriation and is neither merely descriptive language nor a statement of legislative intent.

It is the intent of the legislature that the Department continues to aggressively pursue Medicaid cost containment initiatives. Efforts should continue where the Department believes additional cost containment is possible including further efforts to contain travel expenses. The Department must continue efforts imposing regulations controlling and materially reducing the cost of Personal Care Attendant (PCA) services. Efforts must be continued utilizing existing resources to impose regulations screening applicants for Residential Psychiatric Treatment Center (RPTC) services, especially for out-of-state services. The department must address the entire matrix of optional Medicaid services, reimbursement rates and eligibility requirements that are the basis of the Medicaid growth algorithm. This work is to utilize the results of the Medicaid Assessment and Planning analysis. The legislature requests that by January 2009 the Department be prepared to present projections of future Medicaid funding requirements under our existing statute and regulations and be prepared to present and evaluate the consequences of viable policy alternatives that could be implemented to lower growth rates and reducing projections of future costs.

It is the intent of the legislature that the Department of Health and Social Services eliminate the requirement for narrative and financial quarterly reports for all grant recipients whose grants are \$50,000 or less. This is an unnecessary burden and is not a requirement of the federal grants.

3 It is the intent of the legislature that the Department of Health and Social Services make a
4 single "upfront" payment for any grant award that is \$50,000 or less and includes a signature
5 of the grantee certifying compliance with the terms of the grant with their approved
6 application. Signature of the grantee would also certify that if a final report certifying
7 completion of the grant requirements is not filed, future grants will not be considered for that
8 grantee until all requirements of prior grants are completed satisfactorily. In the event a
9 grantee is deemed ineligible for a future grant consideration due to improper filing of final
10 reports, the grantee will be informed about the department's procedures for future
11 consideration of grant eligibility. The department will establish procedures to consider
12 retroactivity for specific grant consideration or express that the retroactivity cannot be
13 considered for certain grants during the selection process.

14 It is the intent of the legislature that the department continues to evaluate an asset test in
15 Denali KidCare and other Child Care Benefits programs' eligibility criteria that includes the
16 value of assets leased and not owned by the applicant. The department should report to the
17 legislature, no later than January 20, 2009, possible asset test structures, their projected
18 consequences on program participants and any necessary changes to statute, regulation or
19 Alaska's Medicaid State Plan. The report should identify any federal restrictions on asset tests
20 and any potential consequence of an asset test on the availability of federal funding.

21	Alaska Pioneer Homes	13,431,500	13,431,500
-----------	-----------------------------	-------------------	-------------------

22 It is the intent of the legislature that the Department maintain regulations requiring all
23 residents of the Pioneer Homes to apply for all appropriate benefit programs prior to a state
24 subsidy being provided for their care from the State Payment Assistance program.

25 It is the intent of the legislature that all pioneers' homes and veterans' homes applicants shall
26 complete any forms to determine eligibility for supplemental program funding, such as
27 Medicaid, Medicare, SSI, and other benefits as part of the application process. If an applicant
28 is not able to complete the forms him/herself, or if relatives or guardians of the applicant are
29 not able to complete the forms, Department of Health and Social Services staff may complete
30 the forms for him/her, obtain the individuals' or designee's signature and submit for eligibility
31 per AS 47.25.120.

10 It is the intent of the legislature that the department continue developing policies and
11 procedures surrounding the awarding of recurring grants to assure that applicants are regularly
12 evaluated on their performance in achieving outcomes consistent with the expectations and
13 missions of the Department related to their specific grant. The recipient's specific
14 performance should be measured and incorporated into the decision whether to continue
15 awarding grants. Performance measurement should be standardized, accurate, objective and
16 fair, recognizing and compensating for differences among grant recipients including acuity of
17 services provided, client base, geographic location and other factors necessary and appropriate
18 to reconcile and compare grant recipient performances across the array of providers and
19 services involved.

20 It is the intent of the legislature that the \$750,000 increment in the FY09 budget for
21 behavioral health grants be used exclusively to provide additional base funding for existing
22 core services of current grantee providers of adolescent and adult substance abuse
23 intervention or treatment services, who have demonstrated successful outcomes documented
24 in accordance with the Department's performance based evaluation procedures. The
25 Department should continue work on implementing a provider rate rebasing process and
26 specific funding recommendations for both Medicaid and non-Medicaid providers to be
27 completed and available to the legislature no later than December 15, 2008.

28 It is the intent of the legislature that the \$750,000 increment in the FY 09 budget for
29 Behavioral Health Grants be used to provide additional base funding for existing core services
30 of current behavioral health grantees who have demonstrated successful outcomes
31 documented in accordance with the department's performance based evaluation procedures,
32 with an emphasis on increasing substance abuse treatment capacity for adolescents and adults.

9	the following tasks related to fiscal audits required in chapter 66, SLA 2003 of all Medicaid		
10	providers:		
11	1. Develop regulations addressing the use of extrapolation methodology following an audit of		
12	Medicaid providers that clearly defines the difference between actual overpayment of funds to		
13	a provider and ministerial omission or clerical billing error that does not result in		
14	overpayment to the provider. The extrapolation methodology will also define percentage of		
15	"safe harbor" overpayment rates for which extrapolation methodology will be applied.		
16	2. Develop training standards and definitions regarding ministerial and billing errors versus		
17	overpayments. Include the use of those standards and definitions in the State's audit contracts.
