**Brief Summary and Statement of Need:**  
 Funding for this project will provide NPR-A communities with three new police officers. These police officers will work on a rotating schedule which will assist in positioning officers in communities with the greatest need for additional coverage. Maintaining law enforcement/public safety presence in these communities will allow the department to quickly address issues arising from changes in seasonal population and/or activities such as oil field exploration and construction, alterations in hunting patterns, or surges in criminal behavior.
