Brief Summary and Statement of Need:

Project is reduced due to the state's current economic situation. This amendment reduces the FY2010 Governor's Budget by \$14,000.0 AHCC for a new FY2010 of \$6,000.0 AHCC. Construction on Goose Creek Correctional Center (GCCC) is scheduled to begin in calendar year 2009. With the recent collapse in October 2008 of several financial institutions in the United States, the cost of selling bonds for this project increased significantly. The department has responded by cutting back elements of construction where possible, however, the gap between the revised construction budget and the bond sale is still short by approximately \$20,000.0. The requested funding is needed to support the construction and occupancy of GCCC.
