Bill Language:

It is the intent of the legislature that Federal Aid Highway State Match funds may be used for advanced right-of-way acquisitions for Federal Aid Highway Program eligible projects.

Project Description/Justification:

Match will be used for projects previously authorized by the legislature and projects in the FY10 capital budget. Each year, the department requests state matching funds based on the amount and type of federal highway funds estimated to be available in a fiscal year. This budget is based on preliminary estimates of the federal-aid highway funding that will be available in 2010. The department has estimated federal funding levels to be \$330 million in program funds. The department is also providing match for the Alaska University Transportation Center's (AUTC) federal research funds which require a 50% match.

The requested match amount is calculated as follows:
