Project Description/Justification:

The department provides the required match funding based on the estimated federal funding that will be available during the given fiscal year. The estimated amount needed to fund the FFY 2010 Federal Aviation Improvement Program is based on the amount of federal funds expected to be appropriated by Congress for FFY 2010.

Match funding is used for projects that have been previously authorized by the legislature and for projects that are in the FY 2010 capital budget. The state will continue to provide 50% of the match required for local sponsor airport projects.

The requested match amount is calculated as follows:

Rural Airport Program

\$143.5M in federal funds requires a 5% state match (includes \$20.0M in discretionary funds)

$\$143.5\text{M} / 95\% = \151.0M (program total including match amount)

$\$151.0\text{M} - \$143.5\text{M} = \$7.5\text{M}$ match requirement

Local Sponsor Airport Program - The state provides half the required match.

\$16.3M in federal funds requires a 5% match

$\$16.3\text{M} / 95\% = \17.1M (program total including match)

$\$17.1\text{M} - \$16.3\text{M} = \$0.8\text{M}$ match required

$\$0.8\text{M} * 50\% = \0.4M is the State's share of the required match

Summary:

\$ 7.5M rural airport program state match funding

+ 0.4M local sponsor airport match provided by the state

\$ 7.9M required match for airport programs

+ 1.7M funds for unforeseen federally ineligible airport projects ($168.1 * 1\%$)

\$ 9.6M 2010 needs for match and federally ineligible costs for aviation projects
