This request is needed to support the Alaska Labor Relations Agency (ALRA) component expenses related to the UA union election process. The ALRA budget is so lean that it cannot absorb out of the ordinary expenses such as those anticipated with the union election. It is important for ALRA to have the flexibility in their budget to accommodate these types of contractual obligations on an ongoing basis.

This funding will also support ALRA Board member travel, which is critical to accomplishing the mission of the component.

Staff turnover and an increase in federal funding has relieved some pressure on general funds within the Labor Market Information (LMI) component, so this transfer will not impact the services provided by LMI.

This short-term nonpermanent Budget Manager position, PCN 07-#065, was created to provide budget support to the department during a time of transition between a Budget Manager with 30-plus years of experience with the department and a new hire.												
During the period when the Budget Manager position was vacant (7/1/10 – 7/11/10) this position performed the full range of duties associated with that position including resolving any budget difficulties and the preparation of any required budget adjustments. Once the Budget Manager position was filled (7/12/10) this position was available to assist the incumbent with familiarization to the department, the budget and the annual budget process. This position briefed the incumbent on all matters relating to the current budget and potential future budget issues.

	Trout	-10.3	0.0	0.0	-10.3	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		-10.3										
This request is needed to support the Alaska Labor Relations Agency (ALRA) component expenses related to the UA union election process. The ALRA budget is so lean that it cannot absorb out of the ordinary expenses such as those anticipated with the union election.												
This funding will also support ALRA Board member travel which is critical to accomplishing the mission of the component.												
Staff turnover and an increase in federal funding have relieved some pressure on general funds within the Labor Market Information (LMI) component, and so this transfer will not impact the services provided by LMI.												
<b>ADN 07-1-1025 Line Item Transfer to Balance Personal Services</b>												
	LIT	0.0	-29.7	0.0	29.7	0.0	0.0	0.0	0.0	0	0	0
This line item transfer is needed to balance personal services. Recent staff turnover within the component has lowered the anticipated personal services expenses.												
This authority will better serve the component in the contractual services line to support anticipated expenses related to the Labor Market Information Improvement (green jobs) grant.

The Labor Market Information component is requesting a one-time federal increment establishing new FY11 American Recovery and Reinvestment Act (ARRA) authorization in the amount of \$750.0 for a State Labor Market Information Improvement project. These are additional ARRA funds made available since the initial round of funding in FY09.

Through this grant, the department will identify Alaska's green jobs and skill sets and educate Alaskans on the related training and employment opportunities. Building upon unique and comprehensive interagency relationships, databases and delivery systems the department will quantify green jobs in Alaska, determine the supply and demand for green workers in the state, identify green training programs and outcomes and enhance Alaska's online labor exchange to allow green-related job and worker searches. The green job labor market information will be incorporated into all major employment information products produced by the department's Labor Market Information program. This information will allow Alaska to better target education and training investments and formulate more effective public policy.

The personal services funds will support two new long term non-permanent Economist positions (PCN 07-#023 & 07-#024). In support of this grant, these positions will conduct multiple surveys including 1) a survey of government, industry representatives and educational institutions to refine the definition of green industries and occupations, and 2) an employer survey to determine the number of workers employed in green industries and/or occupations.

Funding will also partially support existing research staff to manage the project and provide statistical support including data collection and analysis.

The small amount of travel funding is to support a panel of experts meeting in state to define green industries and related jobs and to make presentations of project findings. In addition, some out of state travel will be required to attend national green job training and meetings.

The majority of the contractual funds associated with this project will cover modifications to Alaska's career information and labor exchange systems and the purchase of occupational skills analysis software. Other contractual costs include normal per position direct and allocated costs and funds for the cost of surveys.

Commodity funds are necessary for normal per position and project specific office supplies.

This transaction will eliminate unrealizable Federal American Recovery and Reinvestment Act (ARRA) authorization that was built into salary cost increases. There is sufficient authorization in the contractual services line to accommodate this decrement.

This transaction reverses the federal American Recovery and Reinvestment Act (ARRA) authority that will be fully-expended by FY2012, but was carried forward thru Sec 35, CH 41, SLA 2010, P 97, L 11 (HB199). This transaction also deletes seven positions associated with the spent ARRA funding. These positions were added to expand in-person reemployment services to assist with the increase of labor exchange customers and unemployment insurance claimants offered by virtue of ARRA.

The positions to be deleted are PCN's:

- 07-5271 Employment Security Specialist Bethel
- 07-5904 Employment Counselor Wasilla
- 07-5961 Employment Security Specialist Wasilla
- 07-5975 Employment Security Specialist Anchorage

This transaction decreases statutory designated program receipt authority to reflect the anticipated level of testing and job fair receipt collections, and training and building (T&B) receipt authority to reflect anticipated collections. The program continues to see declining T&B receipt collections due to employers filing wage reports timely and not having to pay penalties.

This transaction transfers Inter-Agency Receipts authorization from the Employment and Training Services component to the Unemployment Insurance component of the Employment Security Division. The Unemployment Insurance (UI) component needs additional Inter-Agency Receipts authorization to fully support a Release of Confidential Information Reimbursable Services Agreement.

The UI program provides confidential wage record information to other agencies for the purpose of determining applicant eligibility for financial assistance programs. The cost of services is covered through Inter-Agency Receipts.

The Employment and Training Services component has excess Inter-Agency Receipts authorization available due to the elimination of reimbursable services agreements supported with American Recovery and Reinvestment Act funding.

The Employment and Training Services (ETS) component is requesting a fund source change to Federal Receipts from Inter-Agency Receipts. ETS needs additional federal authority to fully support FY2012 costs associated with two new federal grants: a \$2,727.0 Disability Employment Initiative grant to improve participation of persons with disabilities in the Alaska workforce; and a new \$150.0 Health Care Workforce Development grant for developing a plan to increase health professionals in Alaska.

For the Disability Employment Initiative (DEI) grant ETS will partner with the Alaska Workforce Investment Board and the Governor's Council on Disabilities and Special Education to collectively focus on strategies for improving education and training to promote employment opportunities for persons with disabilities. State-level policy development, capacity building, and resource leveraging are missions of this project.

For the Health Care Planning and Workforce Development grant ETS will partner with the Alaska Workforce Investment Board and Research and Analysis within the Department of Labor and Workforce Development, the Department of Health and Social Services, and the Alaska Health Care Workforce Coalition to develop and expand health care workforce planning for high priority occupations.

ETS has excess Inter-Agency Receipts authorization due to the elimination of reimbursable services agreements supported with American Recovery and Reinvestment Act funding.

This transfer from the grants line to the personal services line is needed to align authorization with anticipated expenditures. An increase in authorization is needed in the personal services line to fully-fund FY2012 anticipated personal services costs. Authorization is available in the grants line due to reduced interagency receipt supported grants in FY2012. The interagency receipts supported grants were funded with reimbursable service agreements under the American Recovery and Reinvestment Act (ARRA), which expire in FY2011.

The Unemployment Insurance (UI) component is requesting an increment establishing new FY11 American Recovery and Reinvestment Act (ARRA) authorization in the amount of \$600.0 for improvement of UI benefit and tax operations and to respond to an increased demand for UI benefits. These are additional ARRA funds that are earned as a result of reimbursement for ARRA related UI claims processed. The claims workload has increased to the point that the current ARRA authorization level is not sufficient to accept all of the federal reimbursement available.

An increment request of \$351.1 for new ARRA funding was included in the original Governor's budget; however this amount has now proven to be too low. The program has already received federal notification of \$601.1 in new ARRA funds and anticipates receiving additional amounts on a quarterly basis. It is very difficult to forecast future claims activity which may result in this increased authorization also being insufficient; however, this is the best estimate we can currently justify.

Funds will be used along with regular UI federal base grant funding for information technology training and contracts, including ongoing enhancements to the UI Tax and Benefit programs and to support program staff costs such as telephone, postage, computer mainframe usage costs, software licensing and maintenance.

All of these items will enhance the overall UI program, ensure faster and more efficient customer service, and reduce future costs in operations.

This transfer of authorization from the contractual services line to the personal services line is necessary to align authorization with anticipated expenditures. An increase in authorization is needed in the personal services line to fully-fund FY2012 anticipated personal services costs. Authorization is available in the contractual services line due to projects being completed in FY2011 that were funded by a special federal supplemental budget request.

The Alaska Workforce Investment Board (AWIB) Administrative Assistant II position, PCN 07-1200, was created as a part of FY10 Management Plan. It was the intent in the change record to have the position located in Anchorage with the other AWIB staff. Through an oversight, the location was identified as Juneau when adding the position to the personal services scenario within FY10 Management Plan. This adjustment corrects the position location to Anchorage.

Alaska is ranked fifth in the nation for teens not in school and not working. Career and Technical Education (CTE) is a proven dropout prevention and career building program, yet CTE is underfunded in many districts and virtually nonexistent in others.

This request will establish a competitive grant program for enhanced career and technical education programs geared toward high growth jobs (especially relating to gasoline occupations), especially in regions with limited economic and employment opportunities. This request will also provide for implementation of the Alaska CTE Plan strategies such as implementing student personal learning career plans, coordinating program development and delivery models, and developing evaluation criteria for CTE programs.

This request will also add a Grants Administrator II, PCN 07-#086, to the division to establish and support the new program. Addition of this program without a position would cause undue hardship to existing staff within the Business Services component. The current number of 27 permanent full-time positions within the component is the same level as FY2005 and yet the total grant award amount has increased by 85 percent from \$20.1 million in FY2005 to \$37.7 million in FY2010. Although it is difficult to compare division Grants Administrator positions to one another since the positions have different federal regulatory and administrative fund source requirements, the average grants per administrator at the Department of Health and Social Services is 34 while for DBP it is 37 (based on data from February 2010).

Based on the department's cash flow projections, the State Training and Employment Program (STEP) will have \$10,025.8 available for grants and administration costs in FY 11. The current authorization is \$8,935.9. An increment of \$1,089.9 is needed to fully obligate the available funds for workforce training. The funds will support grants for workforce training to advance the department's overall goal of maximizing the number of Alaskans employed in skilled occupations. The department projects this increase in authorization will provide opportunities to an additional 325 Alaskans to receive training.

This transaction requests new American Recovery and Reinvestment Act (ARRA) federal authorization for training Alaska workers in energy efficiency skills to support energy efficient end user technology and the geothermal, hydroelectric, wind turbine, and biomass industries. Training will include: course related instruction; on-the-job training and customized training with existing federally registered apprenticeship programs and labor management partners; technology-based learning and distance learning.

The increment transaction does not include a personal services request because the division will use existing staff to complete the activities. The requested increased authorization for travel (\$10.0), contractual (\$15.0) and supplies (\$2.0) will be used to fund staff assigned to assist in development of this project. The grants line (\$2,473.0) will be used to issue grants through a competitive solicitation process for training of new and incumbent workers in renewable energy and energy efficiency occupations.

The period of performance of this award is January 29, 2010 through January, 28, 2013. During the period of performance the grant will be used to train 700

Excess authority in personal services exists due to the transfer of two PCNs (05-2010 and 05-2100) to the Client Services component.

\$15.0 is needed in the travel line and \$15.0 is needed in the contractual services line to accommodate specialized management level training including travel for employees, meeting space, and a contracted trainer.

The rest of the authorization transferred to the contractual services line will be restricted as unrealizable and a decrement for that amount will be included in the FY12 budget.

This request will transfer PCN 05-2010, a Community Rehabilitation Program Specialist, and PCN 05-2100, a Program Coordinator II, from Vocational Rehabilitation (VR) Administration to VR Client Services. The duties of both positions changed such that they no longer support other VR programs.

PCN 05-2010, Community Rehabilitation Program (CRP) Specialist will develop and implement an outcome based payment system for CRPs, develop standards, procedures and a quality assurance component for assessing and monitoring the work of CRPs. This position will also work with field staff to determine client needs for specific vocational rehabilitation services, and state agencies, non-profit agencies, and agency staff to assess statewide service needs. Finally, this position will assess available services, capacity for services, and establish division priorities for the establishment or expansion of services. This position will be split between Client Services and the Independent Living component as it also performs federal compliance monitoring of the independent living grants.

PCN 05-2100 a Program Coordinator II, is responsible for the writing and developing the State Plan and the Comprehensive Statewide Needs Assessment, and monitoring the Standards and Indicators and the accuracy of the data for federal reporting. These activities are required by federal law and regulation in order for the division to meet the requirement of the Basic Support Grant which funds the client services component. Other functions of this position include the writing of policy and the development of a comprehensive system of program evaluation and quality assurance for the client services component.

An increase in personal services authorization is required to accommodate the transfer of two PCNs: 05-2010 and 05-2100 from the Vocational Rehabilitation Administration component. Neither position will be included in the VR Administration indirect cost pool. Instead they will be direct charged to the federal grants they support.

Authorization in the travel line is available for transfer due to reduced staff travel. Vacant rural positions are now filled thus removing the need for staff to travel to rural offices to provide services to consumers.

Authorization in the contractual services line is available for transfer due to an anticipated reduction in the division indirect rate, and telephone and postage costs in the client services component. The reduction in overall costs in the VR Administration component will result in a lower indirect rate charged to the Vocational Rehabilitation components. Further, a large portion of telephone calls within the division are made on the State network which are considered local calls when in the past they resulted in long distance charges. Finally, the client services component routinely used DHL and US Postal Service for delivery of invoices and other documents. A large portion of these services have been replaced by scanning and emailing resulting in a reduction in postage and delivery costs.

This request will transfer PCN 05-2010, a Community Rehabilitation Program Specialist, and PCN 05-2100, a Program Coordinator II, from Vocational Rehabilitation (VR) Administration to VR Client Services. The duties for both positions changed such that they no longer support other VR programs.

PCN 052010, Community Rehabilitation Program (CRP) Specialist will develop and implement an outcome based payment system for CRPs, develop standards, procedures and a quality assurance component for assessing and monitoring the work of CRPs. This position will also work with field staff to determine client needs for specific vocational rehabilitation services, and state agencies, non-profit agencies, and agency staff to assess statewide service needs. Finally, this position will assess available services, capacity for services, and establish division priorities for the establishment or expansion of services. This position will be split between Client Services and the Independent Living component as it also performs federal compliance monitoring of the independent living grants.

PCN 05-2100 a Program Coordinator II, is responsible for the writing and developing the State Plan and the Comprehensive Statewide Needs Assessment, and monitoring the Standards and Indicators and the accuracy of the data for federal reporting. These activities are required by federal law and regulation in order for the division to meet the requirement of the Basic Support Grant which funds the client services component. Other functions of this position include the writing of policy and the development of a comprehensive system of program evaluation and quality assurance for the client services component.

Neither position will be included in the VR Administration indirect cost pool. Instead they will direct charged to the federal grants they support. The decrease in VR Administration personal services will ultimately result in a lower division indirect rate. The costs for these positions will be absorbed with existing funding in the Client Services and Independent Living components.

This will transfer federal authority from the Special Projects component to the Client Services component to accommodate the Basic Support grant annual cost of living increases. These increased awards have been absorbed with existing authority until now. An increase in authority is needed to fully spend the anticipated award.

The authority is available for transfer from the contractual line as no expenditures are anticipated in this line item for this component.

The Alaska Vocational Technical Center (AVTEC) requests General Funds and General Funds-Program Receipts authorization to provide maritime engineering training programs in Seward to support the needs of Alaska's maritime workforce. These engineering training programs are: Qualified Member of Engine Department (QMED) and Dedicated Duty Engineer (DDE). An instructor position (PCN 07-#085) is needed to deliver the QMED and DDE training.

In FY2010, AVTEC developed a QMED program at the request of Alaska's maritime industry employers. The first class is scheduled for September 2010. With this funding AVTEC will have the capacity to deliver two QMED programs per year and develop and deliver two DDE program per year, training 60 mariners per year. Additionally, these programs will qualify Alaskans for employment for the 35 Ocean Ranger positions on cruise ships traversing Alaskan waters.

This request is a part of a workforce development plan required by Legislative Intent language that instructs the Department of Labor & Workforce Development and the Department of Environmental Conservation to ensure that Alaskans are provided the opportunity to prepare for jobs as Ocean Rangers on Cruise Ships that transit Alaskan waters. In 2010, five of 21 Ocean Rangers deployed were Alaskan residents.

The increase to the Federal Receipts authorization is necessary to accommodate an increase in federal Pell Grant awards to students and the federal requirement for Title IV funded post-secondary institutions to use the William D. Ford Federal Direct Loan Programs (direct loan) for new federal student loans starting July 1, 2010.

For Pell Grant awards, students apply for Federal Title IV Pell Grants through the Free Application for Federal Student Aid (FAFSA) process. The students are the actual recipients of the federal funds, with AVTEC being a pass-through agency. The US Department of Education (DOE) has increased the maximum Federal Title IV Pell Grant award to post-secondary students.

With enactment of the Health Care and Education Reconciliation Act of 2010, all Title IV eligible post-secondary institutions must use the William D. Ford Federal Direct Loan Program for new federal student loans starting July 1, 2010. Students will apply through the FAFSA process and will be the actual recipients of the federal funds, with AVTEC being a pass-through agency. Starting with direct loans made after July 1, 2010, AVTEC will certify the direct loans online and disburse the funds for AVTEC students.

The Legislative Budget and Audit committee approved AVTEC's request for additional Federal Receipts authorization to accommodate these changes in FY2011.

This request adds authorization to support a reimbursable services agreement with the AVTEC Facilities Maintenance component to increase the custodial staff by one position (PCN 07-#082).

AVTEC has an exceptional custodial staff, but adding two large buildings is really stretching what can get done with only 5 custodians for 17 heavily used buildings. Anticipated results of adding another custodian would be for AVTEC to have sufficient custodial staff to provide safe and healthy environments for students and staff in all AVTEC facilities.

The Alaska Vocational Technical Center (AVTEC) has five full-time positions providing custodial services to AVTEC's 16 state owned buildings and 1 leased building in Seward. In FY2011, AVTEC began training in 2 new facilities, the Maritime Safety Training Facility (MSTF) and the Culinary Academy facility. Another custodial position is needed to cover the additional two new classroom facilities totaling approximately 18,000 square feet. Both buildings will increase revenue possibilities through rental fees, as well as increased training capacity, which can then be used to cover the cost of the additional custodial staff position.

The Alaska Vocational Technical Center (AVTEC) has been included in the Health Professions Opportunity grant from the Cook Inlet Tribal Council (CITC) to establish and deliver a registered nurse (RN) training program in Anchorage to help meet the continued need for qualified nurses in Alaska. The Health Professions Opportunity grant is a 5-year \$7,591.2 federal grant to promote welfare-to-work for Alaska Natives.

Two instructors (PCN 07-#083 and 07-#084) and additional training space, beyond AVTEC's current capacity in Anchorage, are required to fulfill AVTEC's portion of this grant. Without two additional RN instructor positions, AVTEC will not be able to provide the RN training as set up in the federal grant to CITC and thus could result in CITC losing the federal grant. With two additional instructors AVTEC will have the capacity to train up to 20 RN's per year.

The grant from CITC will cover the additional lease space costs in Anchorage to co-locate the existing Certified Nurse Assistant (CNA) and Licensed Practical Nurse (LPN) programs with the RN program (see corresponding change record).

This request changes maintenance staff funding from Deferred Maintenance Capital Funds to Inter-Agency Receipts funding supported by General Funds in the Alaska Vocational Technical Center (AVTEC) component. With this change AVTEC will have more consistent funding for maintenance staff. Future Deferred Maintenance Capital Funds requests would be for special projects, such as boiler replacements, building painting, elevator repairs, etc, and other facilities maintenance.												
AVTEC has six full-time positions providing maintenance of AVTEC's 16 state owned buildings in Seward. Of the 16 buildings, 11 are older than 25 years and include 5 student housing buildings and a cafeteria.												
The DOLWD end result to eliminate accidental injuries, fatalities, and occupational illnesses within departmental jurisdiction is closer to realization by providing the deferred maintenance necessary to establish and maintain environmentally healthy and safe living, training, and working conditions for students, staff, and guests.

<p>AVTEC has an exceptional custodial staff, but adding two large buildings is really stretching what can get done with only 5 custodians for 17 heavily used buildings. Anticipated results of adding another custodian would be for AVTEC to have sufficient custodial staff to provide safe and healthy environments for students and staff in all AVTEC facilities.</p> <p>The Alaska Vocational Technical Center (AVTEC) has five full-time positions providing custodial services to AVTEC's 16 state owned buildings and 1 leased building in Seward. In FY2011, AVTEC began training in 2 new facilities, the Maritime Safety Training Facility (MSTF) and the Culinary Academy facility. Another custodial position is needed to cover the additional two new classroom facilities totaling approximately 18,000 square feet. Both buildings will increase revenue possibilities through rental fees, as well as increased training capacity, which can then be used to cover the cost of the additional custodial staff position.</p>
