As part of the ongoing effort to separate the budget and costs of the Unclaimed Property (UCP) unit from the Treasury Division's cost allocation plan, a transfer of \$50.0 general fund is being made from Treasury to cover the amounts owed by UCP for core services chargebacks and the department's administrative cost allocation plan. In previous years, these costs were allocated to and paid by Treasury, however as the various chargeback methodologies have been updated,

The Administrative Services Division is transferring \$100.2 from contractual services to the personal services line to reduce its vacancy factor and cover the cost of a position that was transferred from within the department in FY11 without funding and reclassified to a Database Specialist to provide department-wide services. Reductions will be made in the contractual line by reducing the department's use of consultants for database services.

The US Department of Housing and Urban Development (HUD) has converted Public Housing Authorities to the Project-based Asset Management (AMP) format.

AHFC's Central Office Cost Center (COCC) provides management, supervision and oversight of all AHFC's rental housing developments. To cover the management costs, it receives a management fee from each individual Asset Management Project (AMP). In the past, these have been recorded as federal

Management fees were moved from number section to language section in FY12, in an attempt to provide a range in which fees can be paid. The estimated amounts for the range were 90.3 to 130.0. The legislature opposed the use of fee range. Therefore the question remains as to whether or not this should be a language item.
