Project Description/Justification:**The purpose of this program is to:**

Support programs that address homelessness by providing assistance to families in imminent danger of becoming homeless or those who are currently homeless.

The projected outcomes are to:

- Prevent near homeless individuals and families from becoming homeless; and/or
- Provide homeless individuals and families assistance to obtain safe, sanitary shelter.

Homeless Assistance Program:

Utilizes State General Funds (GF) funds, Mental Health Trust Authority Receipts (MHTAAR) and State General Funds/Mental Health (GF/MH) for grants to local communities/agencies to help develop programs to support programs designed to reduce homelessness by providing services that prevent housing displacement and assist the homeless to transition back to permanent housing. Corporate funds will be leveraged with the other funds. All funds will be combined and administered

as one program by AHFC.

Program Description:

Established in 1993, this program enables thousands of homeless and/or near homeless families to obtain or retain safe and sanitary shelter each year. Demand for this program has increased steadily over the last five years as annual requests for the prevention and operating components have reached \$3 million per year.

This program has taken on the role of a housing trust and is the coordinated funding for homeless prevention activities in Alaska. There are four main funding sources, AHFC, MHTAAR, GF/MH, and other federal or private resources. In FY2010, 11,263 people (\$2.9 million (state) and \$1.1 million (federal) awarded to 27 projects) benefited from the program; 1,164 households transitioned from temporary to permanent housing; and 774 households were prevented from becoming homeless. This request is supported by the 2009 "10-year Plan to Reduce Homelessness in Alaska" which identifies the activities and cost of reducing homelessness in Alaska over 10 years.

The Homeless Assistance Program (HAP) provides grants to assist nonprofit organizations, local governments, and regional housing authorities in addressing the emergency needs of homeless and near-homeless Alaskans. During the previous two competitive rounds, the total amount of Homeless Assistance Program (HAP) grant requests received by AHFC has averaged \$2.5 million annually. This program has become increasingly important as funds for grants such as homeless assistance from municipal grants and Federal Emergency Housing Assistance continues to shrink.

The most recent grantees have utilized HAP funds to expand shelter facilities, develop supportive transitional housing, provide case management, and rental assistance services and develop supportive housing for mental health trust beneficiaries and the homeless. All funds will be combined and administered as one program by AHFC. A portion of these funds may be used to support the planning and coordination efforts of the Alaska Coalition on Housing and Homelessness.

Inadequate funding will increase the number of homeless families in Alaska and force existing shelters to either exceed capacity or turn away clients. Families in areas where no shelter exists will be forced to live in substandard and/or overcrowded conditions, known to foster higher degrees of domestic violence and substance abuse. Low-wage earning households experiencing a family crisis will also have to contend with the likelihood of homelessness if emergency rental assistance is not available. In some cases, the homeless will cycle into the correctional or mental health system due to lack of adequate housing. Family homelessness has increased by over 25% since FY2009 as a result of the downturn in the economy and the tightening of the statewide rental market.

Funding History:**The New Homeless Assistance Program**

FY2012	\$6,300,000	State General Funds
FY2012	\$850,000	Mental Health Trust Fund Dividends (MHTAAR)
