State of Alaska FY2013 Governor's Operating Budget

Department of Revenue Commissioner's Office Component Budget Summary

	FY2013 Governor	Released December 15th, 2011
12/27/11 9:41 AM	Department of Revenue	Page 1

Component: Commissioner's Office

Contribution to Department's Mission

The mission of the Department of Revenue is to collect, distribute and invest funds for public purposes.

Core Services

- Management oversight of division programs
- Coordination, development and promotion of programs for collection and investment of public funds
- Provide controls and enforcement for the collection, investment and payment of funds (Permanent Fund Dividend, Child Support Services, Tax and Treasury Divisions)

Key Component Challenges

- To provide key decision makers (governor and legislature) with the information necessary to adopt a fiscal plan to insure that the State of Alaska has the financial resources necessary to provide constitutionally required public services in an era of volatile oil prices and declining production.
- To estimate oil and gas revenues in light of the highly volatile oil and gas market coupled with uncertainties in the U.S. economy.
- To contribute to efforts to start large-scale natural gas development in Alaska and commercialization of North Slope natural gas reserves, in particular, through the Alaska Gasline Inducement Act (AGIA).
- To maintain the integrity of core tax programs in the face of resource demands from major revenue and investment initiatives and aging or nonexistent information management systems.
- To maintain the State of Alaska's credit ratings with Standard and Poor's, Fitch Ratings, and Moody's Investors Service. Regular communication of state current events to the rating analysts, as well as ensuring analysts' concerns are relayed to State leadership, are key to meeting this challenge.
- To respond to rapid changes in the banking industry, including temporary regulation changes for the Federal Depository Insurance Program, permanent changes in the Federal Reserve banking reserve requirements, and uncertainty in the nation's banking system.
- To manage the increase in the total assets in GeFONSI, the Constitutional Budget Reserve Fund and other smaller funds managed by Treasury that have grown to the point that they now are larger than the assets of the retirement funds managed by Treasury. At this time, the total assets under management by Treasury are equivalent to those of the Permanent Fund.
- To use technology improvements to process approximately 650,000 Permanent Fund Dividend applications and another 1.5 million supporting documents annually and within a limited budget. The increase in applications and public contact will prove to be a key challenge in communication costs, resource allocation, and timely payment.
- The Child Support Services Division continues to face stringent federal requirements for data reliability that must be met to achieve the highest possible incentive revenue and to avoid possible penalties to the Department of Revenue and the Department of Health and Social Services, Division of Public Assistance.

Significant Changes in Results to be Delivered in FY2013

Please see department changes in results.
