*Funding Details:**No previous funding history.***Detailed Project Description and Justification:**

This grant will be utilized to upgrade classroom digital technology and physical education equipment -- Lathrop High needs a wide variety of classroom digital equipment, including document cameras, video equipment, Smartboards (interactive computer-connected writing boards), and so on. Teachers are increasingly successful engaging teenage students in project-based learning that incorporates digital technology. Also, to help with the health & wellness of our students, we wish to expand our PE offerings with alternative equipment such as stationary bicycles. This would allow us to utilize smaller spaces as PE spaces, and offer another healthy physical activity to our students.

All equipment will be purchased prior to the end of the 2013/2014 school year (May 2014) and be installed and functional prior to the start of the 2013 school year (August 2014).
