Project Description **Principal's Priority** 4

The sound system in the Huffman MPR is old and in extremely poor condition. The sound is scratchy and often inaudible. The sound system in the MPR is used to communicate with students during lunch, for play and performances, PTA Movie Night, Open House and other school assemblies. It needs to be replaced.

Benefits if Project is Funded

The sound system in the MPR is ineffective for what we are attempting to use it for. Our school requires a sound system that will allow us to communicate with a large audience in a safe and effective manner.
