This project will upgrade East 64th Avenue between Laurel Street and Newt Drive and reconstruct 64th Avenue between Newt Drive and Norm Drive to current local road standards. Improvements are expected to include new road base, storm drain installation or replacement, street lighting, and pedestrian facilities.

Design is underway. The project budget has been increased to account for unusual drainage issues in the area. State grant funding is proposed to complete construction funding. A 2015 construction start is anticipated if funding is available. The road base is failing as evidenced by the frost heaves and curb jacking.

This funding may be used for planning, design, obtaining right-of-way and easements, utility relocations, construction, and any other amenities or activities associated with rehabilitating/reconstructing the roadway to current standards.

Project Timeline:

Design expenditures are anticipated in 2014 and 2015. Construction expense is expected in 2015 and 2016.
