Name: Darrell Vincek
Title: Principal

Address: 12000 Lorraine Street

Anchorage, Alaska 99516

Phone Number: (907)742-5650

Email: vincek_darrell@asdk12.org

Has this project been through a public review process at the local level and is it a community priority? X Yes No

For use by Co-chair Staff Only: 590,720 ed

Federal Tax ID: 92-6000078

Location Huffman Elementary School

Project Title: Purchase Interactive Display Technology for Classrooms

Amount of Funding Requested \$90,720.00

Total Funding to complete project \$90,720.00

Primary House District: 26 Secondary House District(s): 28

Primary Senate District: M Secondary Senate District(s): N

Project Description

Principal's Priority

2

Huffman is requesting grant funding for an additional 27 interactive display devices. These devices may include, interactive projectors, or other interactive display technology sets as allowed for on the ASD approved technology list. 5% of the total award will be dedicated to training and professional development associated with effectively integrating this equipment into the classroom environment.

Benefits if Project is Funded

Huffman Elementary is attempting to put an interactive display devices in every classroom. We currently only have 2 interactive display devices in the entire school. This places Huffman Elementary far behind in technology. Interactive display devices open another exciting dimension to instruction and curriculum that engages students directly into the lesson. Research has shown that this teaching tool increase student motivation and engagement. In addition, our students with disabilities can receive instruction in meaningful ways that can address their specific learning needs. Our new District GoMath! curriculum has a strong interactive piece that is not available to our staff or our students. This was evident during the GoMath! training. The disparity between the classes that have an interactive display devices and those who do not is evident. Those classrooms without this technology lack the richness and teaching tool provided by this technology. Huffman has many students with disabilities, the benefits of this technology for visual and kinetic learners.

Impacts if Project is not Funded

of Students impacted by project 350

Project Start Year 2014
Project Finish Year 2015

Project has matching funds are available
Project has prior state funding available
Project has federal funding available
No

Project has had a public review process

Yes
