Project Description

Principal's Priority

1

Aquarian Charter has folding lunch tables that are mounted against the school's multipurpose room/gym on the south wall. The tables are no longer safe and need to be replaced. In addition we are requesting an additional bank of tables be installed on the multipurpose room's north wall. The existing bank of tables no longer meets the needs of our current program. The school program has outgrown the original bank of tables.

Benefits if Project is Funded

The school purchased folding tables for the multipurpose room to provide seating for the students. However, we do not have storage for the current folding tables and they are stored in the multipurpose room during all gym classes and community events. This presents a very serious safety issue for our students during gym class. In addition it limits the amount of space available to the school and community for events. As a small school working at maximum capacity we appreciate your serious consideration of this request for the safety of our students and the use of this community space.

No

Impacts if Project is not Funded

of Students impacted by project 375

Project has prior state funding available

Project Start Year 2014
Project Finish Year 2015

Project has matching funds are available No

Project has federal funding available No

Project has had a public review process Yes
