Anvik Traditional Council - Biomass Community Facilities Heating Project

State Funding Requested: \$100,000**House District: 36 / R**

One-Time Need

Brief Project Description:

Complete the Anvik Biomass Community Facilities Heating Project and maximize its heat distribution to village community facilities.

Funding Plan:

Total Project Cost:	\$510,000
Funding Already Secured:	(\$410,000)
FY2015 State Funding Request:	(\$100,000)
Project Deficit:	\$0

Funding Details:

Anvik received AEA funding via the Interior Regional Housing Authority to contract a central biomass space heating project to serve most village community facilities summer, 2014 in the amount of \$410,000 but requires an additional \$100,000 to complete the project in 2014.

Detailed Project Description and Justification:

The Anvik Traditional Council has worked with the Interior Regional Housing Authority to obtain an AEA Renewable Energy Fund Round 5 funding award to construct a biomass heating station which will serve most the village's community facilities and thereby displace an estimated 20,000 gallons of expensive imported heating fuel oil annually. Due to the limited budget of \$410,000, the biomass project does not have adequate funds to extend heating utilidors to all nearby community facilities. A CIP request of \$100,000 is needed to fully extend utilidors to all nearby community facilities and as a result, maximize the benefits of this biomass space heating project.

Project Timeline:

The planned improvements to be funded with this requested CIP will be conducted during summer through fall, 2014.

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Anvik Traditional Council

Grant Recipient Contact Information:

Name:	Tammy
Title:	Jerue
Address:	P.O. Box 10 Anvik, Alaska 99558

Anvik, AK 99558
RESOLUTION NUMBER 2014 - 04

**A RESOLUTION SUPPORTING FY2015 CIP FUNDING FOR
COMPLETION OF THE ANVIK BIOMASS PROJECT
- NUMBER ONE COMMUNITY PRIORITY**

WHEREAS, it is the Anvik Traditional Council's mission, purpose and vision is to improve the health and welfare of the residents of Anvik, and

WHEREAS, the Anvik Traditional Council operates and maintains many of Anvik's community facilities which consume much imported heating fuel oil and the Council is undertaking a woody biomass space heating project to reduce the high cost of heating these buildings, and

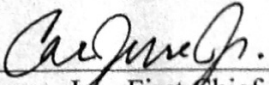

WHEREAS, the Anvik Traditional Council is working with the Alaska Energy Authority to construct a central biomass heating station at Anvik and requires an additional \$100,000 in order to fully serve all community facilities.

THEREFORE BE IT RESOLVED, that the Anvik Traditional Council hereby certifies that it has received and considered citizen comments and hereby declares that the planned Anvik Biomass Project Project is the village's top capital improvement project priority, and

BE IT FURTHER RESOLVED, that the Anvik Traditional Council hereby respectfully requests a Legislative CIP appropriation in the amount of \$100,000 for the purpose of completing the planned Anvik Biomass Project during 2014.

Certification

This resolution was duly adopted by the Anvik Traditional Council at a meeting held at the Village Council's office in Anvik, Alaska on the 6th day of February, 2014 by the following vote: Ayes 4, Nays 0, Abstain 0.

Carl Jerue, Jr. - First Chief
