Project Description

Principal's Priority

1

Campbell Elementary is requesting grant funding for an additional 28 computers. These computers may include either desktop, laptop, or netbooks as allowed for on the ASD Approved Technology list. 5% of the total award will be dedicated to training and professional development associated with effectively integrating this equipment into the classroom environment.

Benefits if Project is Funded

Upgrading technology to portable laptops will be beneficial for running Interactive Displays from anywhere in the classroom, administering universal screenings and progress monitoring, providing RTI interventions with small groups, using them in weekly Professional Learning Communities meetings, professional development opportunities, including staff meetings and credit classes taught at the school, communications with families, etc.

Impacts if Project is not Funded

If not completed, teachers must use their desktop computers, which are outdated, slow in comparison, and confine teachers to conducting business in one area - at their desks in their classrooms.

# of Students impacted by project 400			
Project Start Year	2014		
Project Finish Year	2015		
Project has matching for	unds are available	No	
Project has prior state funding available			
Project has federal funding available
