**Project Description** **Principal's Priority** 1

Install mini-blinds in interior classroom windows to establish a safe, secure area for students and staff.

### Benefits if Project is Funded

The building design allows an excellent means for students and staff to work both in the classroom and outer pod areas. However, the building design does not provide an area for students and staff to be secure and not seen. In a lock down situation, the only safety option is for students and staff to hide in classrooms with no window coverings. If this project were completed the result would be a safe place for students and staff to hide.

### Impacts if Project is not Funded

If the project is not completed, students and staff would be at risk if a shooter entered the grounds or building.
