Has this project been through a public review process at the local level and is it a community priority? Yes No

Location **Orion Elementary School**

Project Title: **Technology for Teachers**

Amount of Funding Requested \$60,000.00

Total Funding to complete project \$60,000.00

Primary House District: 15 **Secondary House District(s):**

Primary Senate District: H **Secondary Senate District(s):**

Project Description

Principal's Priority 1

Orion Elementary is requesting grant funding for various classroom based technology. 5% of the total award will be dedicated to training and professional development associated with effectively integrating this equipment into the classroom environment. This technology may include, but is not limited to:

- printers
- computers
- computer carts
- interactive technology
- software
- cameras
- document cameras
- projectors
- sound systems
- replacement projector bulbs
- replacement batteries,
- video production equipment
- digital storytelling equipment

Benefits if Project is Funded

ASD teachers will not have had their computers refreshed in three years. Computers that Orion does own are becoming obsolete as they aren't capable of going to the next operating system. In addition, classroom teachers depend on their computers for attendance and grading. Technology in the classroom is also used for interventions, parent communication, and hands-on applications in areas such as science and social studies.

Impacts if Project is not Funded

Without updated technology will leave teachers without computers to use or ways for their students to stay current and active in their own learning.

of Students impacted by project 500

Project Start Year 2014

Project Finish Year 2015

Project has matching funds are available **No**

Project has prior state funding available **No**

Project has federal funding available **No**

Project has had a public review process **Yes**
