Project Description **Principal's Priority** 4

With the adoption of the CCSS, our library materials needed to be updated to reflect higher standards and links to curriculum. Reviewing the average age of our materials indicates that the requested amount for materials will significantly upgrade the resources (especially in the area of science and math) for our students and families.

Benefits if Project is Funded

This project will upgrade the collection of library materials at Orion. Since the school is about 50 years old, it has not had an opportunity to have a "new" library in the same way a newly built or renovated school might have. Without outside funding to support a library, the additions have been minimal. Students, teachers, and families will benefit from updated materials, especially in the area of science and math.
