**Primary House District:**    28                      **Secondary House District(s):**                      24

**Primary Senate District:**    N                      **Secondary Senate District(s):**                      K

---

**Project Description**

**Principal's Priority**                      1

The Rabbit Creek parking lot needs to be redesigned to help traffic flow more efficiently and safely. Currently there is too small of an entry into the school parking lot. Compounding the inadequate entry problem, cars are driving two abreast into the parking lot. This isn't safe on the many icy and snow-plugged days that Anchorage has. Additionally there are not enough parking spaces to allow parents to park and come into the school on high participation days in the morning and every day at the end of the school day.

**Benefits if Project is Funded**

The completion of this project will provide a safe and efficient means for parents to drop off and pick up their children and give parents and community members easier access to enter the building. Community members should always feel welcome to enter our school at any time. This project will give full and safe access to our building.

**Impacts if Project is not Funded**

**# of Students impacted by project**                      425

**Project Start Year**                      2014

**Project Finish Year**                      2015

**Project has matching funds are available**                      **No**

**Project has prior state funding available**                      **No**

**Project has federal funding available**                      **No**

**Project has had a public review process**                      **Yes**
