**Additional Information / Prior Funding History:**

An appropriation of 145.7 was made for FY 1999 for a feasibility study.

**Project Description/Justification:**

The Environmental Health (EH) Food Safety Lab (FSL) has been located at its present location in Palmer for approximately thirty years. During that time, the Lab received only minor upgrades or renovation. Present facilities lack basic infrastructure requirements and the lease expires in December 2000. In 1998 EH contracted for a feasibility study to evaluate Lab consolidation, location and cost options. This appropriation will contract for services to update the 1998 Study and develop Bid Specifications.
