Additional Information / Prior Funding History:

Project Description/Justification:

This project is designed to address the roofing and exterior deficiencies that were identified in the January 1998 Facility Condition Survey. Repairs are needed for the existing roofing system at the 14-year-old, 29,454 square foot Wrangell High School to stop the deterioration to the building envelope. Leaks are occurring where the gutters terminate at the end walls of the folded plate walls of the Elementary roof. Repairs are needed to stop the deterioration of the interior structural members. Proposed cost: \$148,228.
