**Project Description/Justification:**

This project will construct a 20,239 square foot addition to the 17,571 square foot school that was originally constructed in 1979 and added to in 1995. The school is currently operating at 169 percent capacity and is expected to reach 238 percent capacity by FY2007. The addition would include nine classrooms, four specialty classrooms, two lockers and shower rooms, two enlargements of existing spaces, and administrative, mechanical, circulation, support, and storage spaces. The design and planning phase for the project is recommended for current funding. Proposed cost: \$6,789,315.
