Project Description/Justification:

This project will construct a 9,864 square foot addition to the 7,803 square foot high school built in 1990. The 3,406 square foot elementary school built primarily in 1970 will be surplus. The school is currently operating at 161 percent capacity and it is expected to reach 167 percent by FY2007. The addition will include six classrooms, two specialty classrooms, a library, bathrooms, a gymnasium addition, and administrative, mechanical, circulation, and storage spaces. The design and planning phase for the project is recommended for current funding. Proposed cost: \$3,881,050.
