

**Anchorage International Airport: Security and Safety  
Upgrades**

**FY2001 Request: \$450,000  
Reference No: 32506**

**AP/AL:** Allocation

**Project Type:** Construction

**Category:** Transportation

**Location:** Anchorage Areawide

**Contact:** Kurt Parkan

**House District:** Anchorage Areawide (HD 10-26) **Contact Phone:** (907)465-3900

**Estimated Project Dates:** 07/01/2000 - 06/30/2004

**Appropriation:** Airport Improvement Program

**Brief Summary and Statement of Need:**

Install airport security and safety upgrades required by FAA regulations and recommended by the Airport Security Consortium. This includes repairing, replacing and installing perimeter security fencing; installing additional security and monitoring cameras; and other security upgrades recommended by the consortium.

**Project Description/Justification:**

Airport perimeter and security fencing requires replacement and expansion in several areas. Under this project, damaged fencing will be replaced or repaired primarily in the Northeast area of the airport. To increase its effectiveness, some areas will be relocated, realigned and control gates installed. Fencing is required to meet FAA Parts 107 and 139 and is particularly needed for wildlife control and vegetation control.

Security and monitoring cameras will be installed in the parking garage to improve security and reduce vandalism, and in other areas, including the baggage makeup/claim areas to improve security and reduce theft.

Purchasing security equipment will improve detection of explosives and support the airport's security services as recommended by the Security Consortium.
