Additional Information / Prior Funding History:

This project is an annual request. \$345,000 was appropriated in FY2001. \$200,000 was appropriated in FY2000.

Project Description/Justification:

License Plates: \$260.0

This portion of the project provides for the purchase of License Plates to maintain stockage levels necessary for their continued issuance. The Division is required by statute (AS28.10.161) to issue license plates. There are three basic reasons for this need. First, all new vehicles registered in the state must be issued plates. Secondly, new residents to the state with vehicles registered in other states are required to obtain Alaska registration and plates within ten days of acquiring a residence or becoming employed. Lastly, owners whose plates are lost, destroyed, or stolen must obtain a duplicate set of plates.

Driver Manuals: \$85.0

This amount will provide funds for the purchase of regular, motorcycle, and commercial driver manuals which must be available at all motor vehicle office locations. The manuals provide applicants for a driver's license or a motorcycle operator's license the information necessary to learn the proper rules for safe driving, and to prepare for their examinations. The project will also purchase motor vehicle law books for use in the Public Safety and law enforcement organizations. This book contains the laws and regulations pertaining to motor vehicles and driver licenses and it is an essential reference.
