Project Development:	0	0
Ongoing Operating:	0	0
One-Time Startup:	0	
Totals:	0	0

Additional Information / Prior Funding History:

Refer to the funding matrix in the detailed description.

Project Description/Justification:

The Electrical Emergencies Program provides funds and technical support when an electric utility has lost the ability to generate or transmit power to its customers and the condition is a threat to life, health, and property in the community. Emergencies of this type result in the loss of communications, lights, refrigeration systems, washeterias, water and sewer systems, and the use of other basic infrastructure and equipment. Extended power outages can be costly and hazardous during winter months. Water and sewer systems are subject to freezing and bursting, fire hazards increase, medical clinics and other public facilities may close, and public safety can be compromised. Based on past experience, emergency assistance is provided to an average of 7 or 8 utilities per year. In FY2002 AEA expended over \$680,000 in emergency funds. The emergencies involved both power plant failures and/or distribution system failures.

Total Capital Appropriation Requested: \$330,000

Funding History - this appropriation has been funded in the language section since at least SLA 97

Year	Amount	Legislation
FY 1998	375,400	SLA 97 Ch 100 Page 21 Line 19
