**Brief Summary and Statement of Need:**

Congress appropriated \$10 million to the Federal Aviation Administration's Facility and Equipment Division in federal fiscal year 2003. The FAA may choose to perform this work. However the department anticipates that the FAA will contract a significant portion of this work to the state for the installation of runway edge lighting, precision approach path indicators (PAPI's) and runway end identification lighting (REIL's), portable lighting and other airport lighting needs. This authority may also be used for AIP funded airport lighting projects as needed.
