2 certain programs, and to capitalize funds; and providing for an effective date.

(SECTION 1 OF THIS ACT BEGINS ON PAGE 2)

1 \* **Section 1.** The following appropriation items are for operating expenditures from the  
2 general fund or other funds as set out in section 2 of this Act to the agencies named for the  
3 purposes expressed for the fiscal year beginning July 1, 2004 and ending June 30, 2005,  
4 unless otherwise indicated. A department-wide, agency-wide, or branch-wide unallocated  
5 reduction set out in this section may be allocated among the appropriations made in this  
6 section to that department, agency, or branch.

7 It is the intent of the legislature that the administration work with the legislature to: 1) ensure  
8 that missions and measures continually align with the organizational structure of departments;  
9 2) promote the ultimate goal of supporting effective activities and change; 3) eliminate  
10 ineffective programs and activities; and 4) develop mutually agreeable End Results. It is the  
11 intent of the legislature that, in addition to the requirements prescribed by AS 37.07.050, each  
12 executive branch agency report the following to the legislature, no later than February 1,  
13 2005, in a forum to be determined by the legislature:

- 14 1. Any desired legislative action, including proposed changes to missions and measures.
- 15 2. A comparison of expected and actual results, including analysis of trends, reasons for  
16 improvement and actions that resulted in no change or a decline in performance.

17 In instances of no change or deteriorated performance, it is the intent of the legislature that  
18 each agency describe actions the agency will take to advance progress toward performance  
19 targets. For measures lacking data, it is the intent of the legislature that the reporting agency  
20 describe any significant impediments to measuring progress toward the performance target,  
21 describe how and when impediments will be overcome, and estimate when the agency  
22 anticipates data will be reported to the legislature. When desired results involve more than one  
23 agency, each agency will note the joint effort and report on its contribution to achieving  
24 desired results.

25 It is the intent of the legislature that the Department of Administration, Office of the  
26 Governor, and other state agencies actively pursue implementation of the state procurement  
27 pilot program authorized by ch. 51, SLA 2003 (HB 313, Twenty-Third Alaska State  
28 Legislature). It is essential that state policy makers show strong leadership in reducing the  
29 cost of government at a time when the State of Alaska is facing a fiscal gap. The procurement  
30 pilot program provides an opportunity to address the fiscal condition of the state in a way that

1 does not reduce program delivery. The procurement pilot program will reduce the costs  
2 associated with procurement and supply chain management, which are significant areas of the  
3 state's administrative costs and represent an area of potentially substantial cost savings in the  
4 future. As a basic administrative function, procurement and supply management represent  
5 appropriate opportunities for achieving costs savings through the use of process management  
6 specialists from the private sector and, when combined with electronic commerce tools, offer  
7 opportunities to reduce the amount of back-office overhead resources required to requisition,  
8 procure, and otherwise administer the acquisition of goods and services, as well as to reduce  
9 the actual costs of goods and services. Given the early indications of large potential cost  
10 savings to the state from the procurement pilot program, the legislature encourages the  
11 executive branch to actively pursue full implementation authorized by ch.51, SLA 2003.

It is the intent of the legislature that the Department of Health and Social Services collaborate with the Alaska Court System and ASAP providers to devise a system of centralized revenue collection from those persons assigned to ASAP screening and evaluation as a condition of their sentence in DWI and alcohol and drug related misdemeanors. The Department is directed to prepare a comprehensive plan to address the deficiencies in the current ASAP system, including a cost-benefit analysis of transitioning the Anchorage ASAP to a local nonprofit provider, an evaluation of which agency should logically manage the program, and a review of other states' ASAP programs. This report is to be provided to the legislature by January 10, 2005.
