Statewide Support Results Delivery Unit

Contribution to Department's Mission

To provide the Department of Public Safety with executive management and administrative support; to provide Alaska's criminal justice system with specialized law enforcement support such as training, information systems, person identification; and to administer the state's funds awarded to the Civil Air Patrol.

Core Services

The Commissioner's Office contains the budget for the department's principal executive officer. Key staff support includes legislative liaison, regulations, labor relations, policy deliberation, and coordination of responses to administration, legislative, and public information requests.

The Public Safety Training Academy in Sitka, in cooperation with the University of Alaska Southeast, provides basic police training via Alaska Law Enforcement Training (ALET) classes. These 14 week ALET classes include three types of students: those hired as state trooper recruits, those hired as municipal police officers, and students who pay their own way in hopes of obtaining employment in some aspect of public safety upon graduation. The academy also provides specialized training for Village Public Safety Officers who are employees of regional native non-profit corporations throughout rural Alaska.

Administrative Services provides centralized staff support to all department programs and coordinates with all central state agencies. Services include accounting, budget, procurement and supply, and facilities maintenance responsibilities, and coordinating with other state agencies for centralized services, such as human resources services provided by the Department of Administration.

The Alcoholic Beverage Control (ABC) Board licenses those engaged in the legal manufacture and sale of alcoholic beverages and conducts investigations and criminal background reviews of liquor licensees. They also accredit statutorily required alcohol server training. The board also provides information on alcoholic beverage laws and the liquor licensing process to local governments, police departments, Alaska State Troopers, community councils, hospitality industry trade groups, and concerned members of the public.

The Alaska Wing, Civil Air Patrol (CAP), is part of a national, non-profit organization dedicated to providing emergency services, cadet programs, and aerospace education. State funds are used to maintain 36 corporate aircraft and 13 hangars throughout Alaska. The federal government reimburses the cost of operating expenses for CAP corporate aircraft and private aircraft flown on search and rescue (SAR) missions. The CAP participates in most SAR cases in Alaska.

Laboratory Services provides support to the department and other law enforcement agencies throughout the state. Forensic services include the scientific examination and detailed analysis of evidence in criminal cases and assistance with crime scene investigations. Laboratory staff provide expert testimony in court regarding the results of the testing of evidence. Staff also provide training to law enforcement officers regarding proper evidence collection and preservation according to the latest forensic techniques.

The Alaska Public Safety Information Network (APSIN) provides the core information system used by all law enforcement agencies in the criminal justice system and authorized non-criminal justice agencies that require access to criminal history record information to protect children or protected classes of adults. APSIN is maintained 24 hours a day, seven days a week, so it can provide police officers information about wanted or missing persons, stolen property, vehicles, driver licenses, etc.

The Alaska Criminal Records and Identification component maintains criminal history records for Alaska. This record-keeping responsibility is automated on APSIN, which is used by all police, prosecutors, courts, and corrections officials in Alaska. Fingerprints provide positive proof of identity and are typically captured on fingerprint cards made at the time of arrest or conviction. These fingerprint images are stored in an automated system which can electronically search for matches to identify latent fingerprints found at a crime scene or from an unidentified body. Photographs are also maintained to help police identify and search for suspected criminals.

FY2005 Resources Allocated to Achieve Results

FY2005 Results Delivery Unit Budget: \$16,443,900	Personnel:	
	Full time	140
	Part time	0
	Total	140
