**Additional Information / Prior Funding History:**

FY2004 \$2,150 - Corporate Receipts; Requested funds in FY2003.

**Project Description/Justification:**

The purpose of this program is to increase home ownership for low-income borrowers by subsidizing interest rates based on family income and family size.

**The projected outcomes are:**

- Increasing affordability for housing purchases by low- to moderate-income families;
- Increasing home ownership;
- Lowering interest rates on AHFC mortgage programs to attract loan volume and generate net income;
- A statewide housing conference.

**Program Description:**

AHFC has successfully managed the use of excess arbitrage funds with interest rate reduction programs for mortgage loans to low-income families, special needs populations, senior citizens, and for energy efficiency improvements. These programs lower interest rates on mortgage purchases in order to improve affordability for Alaskan home buyers, and to offer housing loans below the rates of national secondary mortgage purchasers (e.g. Fannie Mae & Freddie Mac).

The primary purpose of these funds is to provide Alaskans housing programs that are affordable by supplementing arbitrage funds to continue established programs that provide business opportunities to enhance the corporation's net income. In addition to the established programs, AHFC anticipates developing new opportunities with programs such as the Teacher Housing Program(s) and the Health Professionals Housing Program(s).

Attracting and maintaining a pool of qualified teachers and health professionals in rural Alaska is a goal of the State of Alaska. In order to achieve this, housing for teachers and health professionals must be available, affordable and of a quality that encourages these professionals to locate in rural settings. The Teacher and Health Professional Housing Grant Program was developed to respond to the need for additional housing for professionals and their families by providing grants to fill the funding gap for such housing projects. Funding will be made available through a competitive process for new construction, rehabilitation or acquisition of rental or lease/purchase housing.

The corporation – based on loan demand, interest rate fluctuations, and market conditions – may change rate reductions and certain eligibility criteria.

The corporation may contribute funds toward sponsoring a statewide housing conference to bring together all aspects of the housing industry. AHFC expects other entities and agencies to also contribute toward this event.
