**Additional Information / Prior Funding History:**

FY2005 - \$11,200,000; FY2004 - \$14,575,000; FY2003 - \$800,000; FY2002 - \$7,500,000.

**Project Description/Justification:**

**INCENTIVES:** Because the State of Alaska now has a .08% blood alcohol limit for operating a motor vehicle (Chapter 63 SLA 2001), incentive funds of approximately \$800,000 per year, in addition to formula FHWA funds, are available to the state. These funds, 100% federal money, may be used for any highway improvement or safety program under 23USC, including safety education.

**SANCTIONS:** Alaska does not have open container and repeat intoxicated driver laws that conform to federal laws (23USC154 and 23USC164). Funding sanctions are imposed because of this. On October 1, 2005, 6% of the National Highway System, Surface Transportation Program, and Interstate Maintenance funds from TEA-21 are being transferred to the Highway Safety Program (23USC402). A 3% penalty is assessed on these programs for Alaska not having an open container law, and 3% comes from not having a repeat intoxicated driver law. These penalties decrease the total amount of highway construction funds available to Alaska. The anticipated sanction on October 1, 2005 (FFY2006) is approximately \$10.4 million (100% federal). These sanction penalties provide funds for safety education and highway safety improvements.
