Additional Information / Prior Funding History:

FY05 - \$303,125.

Project Description/Justification:

The existing building is 25 years old and is not adequate for sand storage. The walls have begun to bulge outward due to years of sand pushing against them. As a result, the safety and structural integrity of the building is questionable. Bays to store sand and airport de-icing fluids (EK-36 and Urea) are needed and will be part of the new building's design.
