Additional Information / Prior Funding History:

None.

Project Description/Justification:

To meet FAA design standards, the RSA should extend 1,000' beyond the approach end of Runway 25. There is currently no RSA on this end of the runway. There is no RSA available for aircraft overruns or underruns, or for the movement of maintenance and ARFF(Airport Rescue and Fire Fighting) equipment around aircraft positioned on the runway. RSA improvement is a nationwide priority for the FAA.
