Project Description/Justification:

This project will reconstruct and resurface Runway 07-25 and safety area and Taxiway B. This crosswind runway has poor to failed pavement and resurfacing will extend the surface life 10-15 years upon completion. This project will also relieve the congestion on the existing Taxiway "B" apron in the middle of town and eliminate the "elephant ear" apron adjacent to Runway 16-34. The "elephant ear" apron is suitable for small aircraft only and aircraft parked on this apron penetrate Federal Aviation Regulations Part 77 imaginary surfaces.
