Additional Information / Prior Funding History:**Project Description/Justification:**

This project would improve and resurface the historic Stampede Road from the Parks Highway to 8 Mile Lake, a route with growing tourism interest and traffic. The existing road is 22 feet wide to 3.5 mile and was chip sealed in 2000. The remainder of the road is unimproved with very little gradable surfacing material. The road ends at an unimproved parking area at 8 Mile Lake, which serves as a trail head for the old Stampede Trail. The existing 22 feet wide road will be improved, widened and surfaced with an asphalt surface treatment. This project also includes the possible extension of the road as well as improvements to the parking area at 8 Mile Lake.
