

City of Perryville - Barge Landing Dock Design and Construction

FY2007 Request: \$100,000
Reference No: 41966

AP/AL: Appropriation
Category: Transportation
Location: Perryville
House District: Bristol Bay/Aleutians (HD 37)
Estimated Project Dates: 07/01/2006 - 06/30/2011

Project Type: Construction
Recipient: City of Perryville
Contact: Samuel Thomas
Contact Phone: (907)465-2506

Brief Summary and Statement of Need:

This project will provide funding for barge landing facilities and dock.

Funding:	FY2007	FY2008	FY2009	FY2010	FY2011	FY2012	Total
Gen Fund	\$100,000						\$100,000

Additional Information / Prior Funding History:

Project Description/Justification:

Currently, there is no dock facility in Perryville. Fuel and freight barge landings can be difficult with poor weather conditions. The project will provide roll-on/roll-off barge facilities and "dolphins" for a barge to tie off to, as well as a small dock to handle other boats needing to load fuel or freight.

This project will provide a safe, reliable and economic transfer of fuel and freight for Perryville. The engineering and design of this project will also be used for similar projects in the Iliamma villages (pending project funding).

Partners in the project include the Village of Perryville, the Lake and Peninsula Borough and the Denali Commission. The estimated cost is between \$1.5 to \$3.5 million for Perryville's facility, pending design recommendations. The Lake and Peninsula Borough will work with Perryville to help acquire necessary tidelands and/or uplands deemed necessary for the project. The Denali Commission has identified \$160,125 for this project to perform design, permitting and environmental review. \$100,000 is requested to match the Denali Commission funding.
