Estimated Project Dates: 07/01/2006 - 06/30/2011

Appropriation: Airport Improvement Program

Brief Summary and Statement of Need:

The project will relocate the airport and construct a new 3280' X 75' runway, a new apron and taxiway, an airport access road, and a new equipment storage building and develop lease lots. The project will also install airport lighting. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage, by improving the mobility of people and goods and by increasing private investment.

Additional Information / Prior Funding History:

FY2005 - \$5,500,000.

Project Description/Justification:

The current runway, apron and taxiway do not meet state standards for a community class airport. The airport does not have a runway safety area and does not meet current dimensional standards for length and width. The runway floods several times each year and surface area is degraded and soft. There are no lease lots. Airport lighting will improve operations and safety during hours of limited visibility and darkness.
