FY2006 - \$8,500,000.

Project Description/Justification:

The King Salmon Airport Master Plan recommended a series of capacity and safety improvements to the airfield facility. This project implements those recommendations.

Stage 1 will construct full runway safety areas. Stage 2 will construct a new parallel taxiway with medium intensity lights; construct new apron space and parking area at terminal apron, install new wind socks; stripe the helipad; purchase land for a runway protection zone; construct a blast pad; restripe the apron for transient jet parking; install lighting for taxiway North and the East apron taxiway; relocate & reconstruct the Airport Access Road; pave the long term parking area; and resurface taxiway 18-36.
