Project Description/Justification:

This road serves as the only access for area residents and summer tourist along the Kenai River east of Soldotna. This road is difficult and costly to keep in good condition, has lots of washboard surface condition, and contains many potholes. In summer, the road is very dusty which aggravates health conditions for everyone that lives along the road. There are two public boat docks and a recreation area that are served by this road. Local residents have formed a steering committee to assist in gathering information and promoting this project to local governments and to our Congressional Delegation in Washington DC.
