

**Alaska Marine Highway: Terminal - Skagway Sewage Utility** **FY2007 Request: \$1,000,000**  
**Reference No: 41690**

**AP/AL:** Allocation **Project Type:** Construction  
**Category:** Transportation  
**Location:** Skagway **Contact:** Robin Taylor  
**House District:** Cordova/Southeast Islands (HD 5) **Contact Phone:** (907)465-6977  
**Estimated Project Dates:** 07/01/2006 - 06/30/2011  
**Appropriation:** Surface Transportation Program

**Brief Summary and Statement of Need:**

Add sewage utility to the Skagway Terminal float. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.

None.

**Project Description/Justification:**

Add sewage utility to the Skagway Ferry Terminal float. Enable all AMHS ferries to connect to the City of Skagway sewer system. The addition of a sewage line to the float at the AMHS Skagway ferry terminal will allow ferries to pump their sewage when it is convenient to them. Pumping sewage to a shore facility enables the ferry to carry less weight while transiting. Weight = cost. An example is the Fairweather that must pump her sewage to a truck almost daily. That sewage is then trucked, at high cost, to a sewage treatment facility over 14 miles away. It would be very simple for Fairweather to connect directly to a city sewage line.
